ABOUT ME

Currently pursuing B.Tech in Computer and Communication Engineering at Sri Manakula Vinayagar Engineering College (2024–2028). Skilled in Python, SQL, and data analytics tools, with hands-on experience in data cleaning, exploratory data analysis, and building predictive models. Passionate about turning raw data into meaningful insights. Completed internship and training in Data Analytics at Mindenious. Eager to contribute to data-driven projects and grow in the field of analytics.

EDUCATION

SEVENTH DAY ADVENTIST HIGHER SECONDARY SCHOOL

In Puducherry | 2010 - 2024

I completed my schooling at Seventh Day Adventist Higher Secondary School, Marapalam, in 2024. I secured 65% in my 10 standard and 75% in my 12 standard with the Computer Science group. My entire schooling journey at this institution helped me develop strong academic skills, discipline and a keen interest in technology.

SRI MANAKULA VINAYAGAR ENGINEERING OF COLLEGE

In Puducherry

I am currently pursuing my Bachelor of Technology in Computer and Communication Engineering at Sri Manakula Vinayagar Engineering College. I choose this department because it combines both software and hardware fields, which aligns with my interest in technology and innovation.

PROJECT EXPERIENCE

Movie Recommendation System

Individual Project, GitHub – May 2026

Description: Built a content-based machine learning movie recommendation system using Python and Streamlit. Applied collaborative filtering techniques with Scikit-learn for similarity modelling. Deployed an interactive web application allowing users to explore personalised movie suggestions.

House Price Prediction

Individual Project, GitHub – May 2026

Description: Developed a regression model to predict housing prices from structured tabular data. Performed exploratory data analysis, feature engineering, and model evaluation using MAE and RMSE metrics. Gained hands-on experience in data preprocessing and supervised learning workflows.

Customer Churn Analysis

Internship Project, Mindenious – Apr 2026

Description: Analysed telecom customer data to identify churn drivers and high-risk customer segments. Cleaned and processed raw datasets, built classification models, and visualised results. Developed practical skills in business-focused data analytics and stakeholder reporting.

TECHNICAL SKILLS

• Python	MySQL	Data Cleaning & EDA
• Pandas & NumPy	Scikit-learn	Predictive Modelling
• Matplotlib & Seaborn	Streamlit	MS Excel

CERTIFICATIONS

- Mindenious: Data Analytics Training – MIND-TRN-353 (May 2026)
- Mindenious: Data Analytics Internship – MIND-INT-353 (May 2026)
- Infosys: Basics of Python
- CCNA: Enterprise Networking, Security, and Automation – Cisco Networking Academy
